

Travel information for staff

This toolkit offers an easy-to-use template for you to populate and upload on to your staff web pages, staff notice boards, or include within a staff induction pack. The information has been written so that all you need to do is add your site-specific information (the sections in italics are for you to amend).

Why provide staff with travel information?

By providing travel information to staff, you are empowering you and your workforce to make smarter travel choices. Sustainable and active travel have a positive impact on both the environment, our physical and mental health. A happy and healthy workforce helps to ensure less sickness and higher productivity.

Template travel information for staff web pages

[Enter name of organisation] is committed to encouraging you to make smarter travel choices for your commute and whilst travelling on business. The information provided is practical advice to help you make positive changes to the way you travel. Green travel helps to reduce expenses such as car parking and fuel, as well as being more active, reducing carbon emissions and traffic congestion.

[Do you have a travel plan? If so, give details here.]

Travel options: *[each of these sections should hyperlink to new pages about each mode. Include a map at the top of this section highlighting the office location with nearby travel facilities that you mention below marked on]*

Walking
